- Repeat borrower contribution^{*10} of loans originated by financial institutions across our platform for the third quarter of 2022 was 88.5%.

1 Refers to cumulative registered users across our platform.

2 "Users with approved credit lines" refers to the total number of users who had submitted their credit applications and were approved with a credit line at the end of each period.

3 Including 5,336,883 loans across "V-pocket", and 9,451,438 loans across other products.

4 Refers to the total principal amount of loans facilitated and originated during the given period, including loan volume facilitated through Intelligence Credit Engine ("ICE") and other technology solutions.

5 "ICE" is an open platform on our "360 Jietiao" APP, we match borrowers and financial institutions through big data and cloud computing technology on "ICE", and provide pre-loan investigation report of borrowers. For loans facilitated through "ICE", the Company does not bear principal risk. Loan facilitation volume through "ICE" was RMB3,478 million in the third quarter of 2022.

Under other technology solutions, we offer financial institutions on-premise deployed, modular risk management SaaS, which helps financial institution partners improve credit assessment results. Loan facilitation volume through other technology solutions was RMB26,034 million in the third quarter of 2022.

6 "Total outstanding loan balance" refers to the total amount of principal outstanding for loans facilitated and originated at the end of each period, including loan balance for "ICE" and other technology solutions, excluding loans delinquent for more than 180 days.

7 Outstanding loan balance for "ICE" and other technology solutions were RMB7,779 million and RMB26,777 million, respectively, as of September 30, 2022.

8 SME loans are loans issued to SMEs with e-commerce operations, with business sales receipt, and/or with business taxation record.

9 "90 day+ delinquency rate" refers to the outstanding principal balance of on- and off-balance sheet loans that were 91 to 180 calendar days past due as a percentage of the total outstanding principal balance of on- and off-balance sheet loans across our platform as of a specific date. Loans that are

charged-off and loans under "ICE" and other technology solutions are not included in the delinquency rate calculation.

10 "Repeat borrower contribution" for a given period refers to (i) the principal amount of loans borrowed during that period by borrowers who had historically made at least one successful drawdown, divided by (ii) the total loan facilitation and origination volume through our platform during that period.

Third Quarter 2022 Financial Highlights

- Total net revenue was RMB4,144.1 million (US\$582.6 million), compared to RMB4,612.8 million in the same period of 2021.

- Non-GAAP^{*11} income from operations was RMB1,207.8 million (US\$169.8 million), compared to RMB1,963.3 million in the same period of 2021.
- Operating margin was 27.9%. Non-GAAP operating margin was 29.1%.
- Net income was RMB988.4 million (US\$138.9 million), compared to RMB1,564.1 million in the same period of 2021.
- Non-GAAP net income was RMB1,037.9 million (US\$145.9 million), compared to RMB1,633.6 million in the same period of 2021.
- Net income attributed to the Company was RMB992.8 million (US\$139.6 million), compared to RMB1,564.1 million in the same period of 2021.
- Net income margin was 23.8%. Non-GAAP net income margin was 25.0%.

11 Non-GAAP income from operations (Adjusted Income from operations), Non-GAAP net income (Adjusted net income), Non-GAAP operating margin and Non-GAAP net income margin are non-GAAP financial measures. For more information on these non-GAAP financial measures, please see the section of "Use of Non-GAAP Financial Measures Statement" and the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results" set forth at the end of this press release.

Mr. Haisheng Wu, Chief Executive Officer and Director of 360 DigiTech, commented, "We have witnessed modest improvement in a challenging macro environment during the quarter although some uncertainties remained. In the third quarter, total facilitation and origination volume was RMB110.7 billion, up approximately 13% year-on-year. During the quarter, we also added approximately 1.7 million new users with approved credit lines, a 19% sequential increase, while keeping the overall sales and marketing expenses around the same level. Our consistent execution enabled us to strike a desired balance between growth in business and exposure to macro risks. Approximately 58% of the loans was facilitated under the capital-light model, ICE and other technology solutions^{*12}. The increased contribution from non-credit risk bearing services helped us further mitigate near term risks and volatilities, and brought us closer to long term sustainable technology driven business models.

During the quarter, we continued our efforts to optimize our user base to lower overall credit risks and higher user retention. Such efforts not only enabled us to continue improving risk metrics against macro uncertainties, but also allowed us to offer better priced products to users. Average IRR of the loans originated and facilitated through our platform further optimized to well below 24% rate cap requirement in the third quarter. In addition, we continued to expand our partnership with larger financial institutions with national operations, and with readily available liquidity in the financial system, we meaningfully lowered overall funding costs during the quarter.

On the regulatory front, as one of the leading Credit-Tech platforms, we have substantially completed most of the rectification measures to our operations based on our self-examination results in accordance with regulatory guidance. The regulatory authorities have reviewed our rectification measures in general. We note regulators' recent comments regarding gradually shifting focus from self-examination and rectification to regular regulatory supervision in many aspects of platform operations and we are also encouraged to see continued supportive statements for platform economy by various regulators."

"We are pleased to report another quarter of solid financial results in a changing macro environment. Total revenue was RMB4.14 billion and non-GAAP net income was RMB1.04 billion," Mr. Alex Xu, Chief Financial Officer, commented. "During the quarter, although we experienced some recovery in demand for consumer credit, the pace and magnitude of the rebound were modest. With the sporadic resurgence of and subsequent restrictive measures to contain COVID-19 across the country, we intend to continue to take a prudent approach to manage our business growth and risks. At the end of the third quarter, our total cash and cash equivalent^{*13} was approximately RMB10.8 billion, and we generated approximately RMB1.6 billion cash from operations. Our strong financial positions further strengthen our capability to navigate through near term economic challenges."

Mr. Yan Zheng, Chief Risk Officer, added, "We continued to lower our risk exposure by optimizing our user base to focus on relatively higher quality groups in the third quarter. Among key leading indicators, Day-1 delinquency^{*14} further improved to 4.5% from 4.9% quarter-on-quarter, another historic low. With the continued adjustment in our collection operation, 30-day collection rates^{*15} reached the best level for the year during the quarter. Despite the still challenging macro conditions, our commitment to further optimize our user base should help us mitigate some impact on risk metrics from the economic uncertainties for the rest of the year."

12 We've mainly used data technology tools and AI credit assessment systems in the process of providing such services as loan facilitation, post-facilitation and borrowers' referral to our customers. Revenues from these technology powered services accounted for 43% of our total net revenue for the third quarter 2022.

13 Including "Cash and cash equivalents", "Restricted cash", and "Security deposit prepaid to third-party guarantee companies".

14 "Day-1 delinquency rate" is defined as (i) the total amount of principal that became overdue as of a specified date, divided by (ii) the total amount of principal that was due for repayment as of such specified date.

15 "30 day collection rate" is defined as (i) the amount of principal that was repaid in one month among the total amount of principal that became overdue as of a specified date, divided by (ii) the total amount of principal that became overdue as of such specified date.

Third Quarter 2022 Financial Results

Total net revenue was RMB4,144.1 million (US\$582.6 million), compared to RMB4,612.8 million in the same period of 2021, and RMB4,183.2 million in the prior quarter.

Net revenue from Credit Driven Services was RMB2,941.1 million (US\$413.5 million), compared to RMB2,620.0 million in the same period of 2021, and RMB2,947.8 million in the prior quarter.

Loan facilitation and servicing fees-capital heavy were RMB582.9 million (US\$81.9 million), compared to RMB581.1 million in the same period of 2021 and RMB580.4 million in the prior quarter. The year-over-year changes mainly reflected changes in loan facilitation volume through capital-heavy model.

Financing income^{*16} was RMB877.1 million (US\$123.3 million), compared to RMB570.5 million in the same period of 2021 and RMB819.6 million in the prior quarter. The year-over-year and sequential increases were primarily due to the growth in average outstanding on-balance-sheet loan balance.

Revenue from releasing of guarantee liabilities was RMB1,447.6 million (US\$203.5 million), compared to RMB1,440.7 million in the same period of 2021, and RMB1,524.5 million in the prior quarter. The year-over-year and sequential changes mainly reflected changes in average outstanding balance of off-balance-sheet capital-heavy loans during the period.

Other services fees were RMB33.6 million (US\$4.7 million), compared to RMB27.6 million in the same period of 2021, and RMB23.3 million in the prior quarter.

Net revenue from Platform Services was RMB1,203.0 million (US\$169.1 million), compared to RMB1,992.8 million in the same period of 2021 and RMB1,235.4 million in the prior quarter.

Loan facilitation and servicing fees-capital light were RMB1,040.2 million (US\$146.2 million), compared to RMB1,800.1 million in the same period of 2021 and RMB1,030.0 million in the prior quarter. The year-over-year decline was primarily due to decrease in loan facilitation volume through capital-light model as well as decline in average IRR of the loans. The sequential increase was mainly due to increase in loan facilitation volume through capital-light model and partially offset by decline in average IRR.

Referral services fees were RMB85.4 million (US\$12.0 million), compared to RMB156.3 million in the same period of 2021 and RMB135.4 million in the prior quarter. The year-over-year decline was primarily due to decline in referral services fees and loan facilitation volume through ICE. The sequential decline was primarily due to the decrease in loan facilitation volume through ICE, partially offset by increase in other referral services fees.

Other services fees were RMB77.4 million (US\$10.9 million), compared to RMB36.5 million in the same period of 2021 and RMB70.1 million in the prior quarter. The year-over-year and sequential changes mainly reflected the growth in loan facilitation volume through other technology solutions.

Total operating costs and expenses were RMB2,985.9 million (US\$419.7 million), compared to RMB2,719.1 million in the same period of 2021 and RMB3,172.4 million in the prior quarter.

Facilitation, origination and servicing expenses were RMB617.3 million (US\$86.8 million), compared to RMB627.2 million in the same period of 2021 and RMB555.6 million in the prior quarter. The year-over-year decrease was in part due to improvement in operational efficiency. The sequential increase was in part due to growth in loan facilitation and origination volume and balance.

Funding costs were RMB138.5 million (US\$19.5 million), compared to RMB83.8 million in the same period of 2021 and RMB123.9 million in the prior quarter. The year-over-year and sequential increases were mainly due to the growth in funding from ABS and trusts.

Sales and marketing expenses were RMB624.1 million (US\$87.7 million), compared to RMB577.3 million in the same period of 2021 and RMB615.1 million in the prior quarter. The year-over-year and sequential increases were mainly due to a more proactive customer acquisition strategy focusing on higher quality users.

General and administrative expenses were RMB102.7 million (US\$14.4 million), compared to RMB173.0 million in the same period of 2021 and RMB93.9 million in the prior quarter. The year-over-year decline was due to lower professional service fees and our continued effort to improve operational efficiency. The sequential increase was due to expanded business operations.

Provision for loans receivable was RMB191.5 million (US\$26.9 million), compared to RMB360.4 million in the same period of 2021 and RMB416.1 million in the prior quarter. The year-over-year and sequential declines were mainly due to higher reversal of prior quarters' provision as loans facilitated in previous quarters performed better than expected.

Provision for financial assets receivable was RMB115.1 million (US\$16.2 million), compared to RMB70.1 million in the same period of 2021 and RMB103.7 million in the prior quarter. The year-over-year and sequential changes reflected the Company's consistent approach in assessing provisions commensurate with its underlying loan profile.

Provision for accounts receivable and contract assets was RMB53.8 million (US\$7.6 million), compared to RMB129.1 million in the same period of 2021 and RMB63.4 million in the prior quarter. The year-over-year decrease was primarily due to a decrease in loan facilitation volume under capital-light model. The sequential decrease mainly reflected the Company's consistent approach in assessing provisions commensurate with its underlying loan profile.

Provision for contingent liability was RMB1,142.8 million (US\$160.7 million), compared to RMB698.3 million in the same period of 2021 and RMB1,200.7 million in the prior quarter. The year-over-year increase mainly reflected lower reversal of prior quarters' provision under the Company's consistent approach in assessing provisions commensurate with its underlying loan profile. The sequential decrease was primarily due to decrease in loan facilitation volume through capital-heavy model.

Income from operations was RMB1,158.3 million (US\$162.8 million), compared to RMB1,893.7 million in the same period of 2021 and RMB1,010.8 million in the prior quarter.

Non-GAAP income from operations was RMB1,207.8 million (US\$169.8 million), compared to RMB1,963.3 million in the same period of 2021 and RMB1,057.5 million in the prior quarter.

Operating margin was 27.9%. **Non-GAAP operating margin** was 29.1%.

Income before income tax expense was RMB1,171.5 million (US\$164.7 million), compared to RMB1,922.7 million in the same period of 2021 and RMB1,155.3 million in the prior quarter.

Net income was RMB988.4 million (US\$138.9 million), compared to RMB1,565.1 million in the same period of 2021 and RMB975.0 million in the prior quarter.

Non-GAAP net income was RMB1,037.9 million (US\$145.9 million), compared to RMB1,633.6 million in the same period of 2021 and RMB1,021.7 million in the prior quarter.

Net income margin was 23.8%. **Non-GAAP net income margin** was 25.0%.

Net income attributed to the Company was RMB992.8 million (US\$139.6 million), compared to RMB1,564.1 million in the same period of 2021 and RMB979.8 million in the prior quarter.

Non-GAAP net income attributed to the Company was RMB1,042.4 million (US\$146.5 million), compared to RMB1,633.6 million in the same period of 2021 and RMB1,026.6 million in the prior quarter.

Net income per fully diluted ADS was RMB6.18 (US\$0.86).

Non-GAAP net income per fully diluted ADS was RMB6.48 (US\$0.91).

Weighted average basic ADS used in calculating GAAP and non-GAAP net income per ADS was 156.24 million.

Weighted average diluted ADS used in calculating GAAP and non-GAAP net income per ADS was 160.76 million.

16 "Financing income" is generated from loans facilitated through the Company's platform funded by the consolidated trusts and Fuzhou Microcredit, which charge fees and interests from borrowers.

Use of Non-GAAP Financial Measures Statement

To supplement our financial results presented in accordance with U.S. GAAP, we use non-GAAP financial measure, which is adjusted from results based on U.S. GAAP to exclude share-based compensation expenses. Reconciliations of our non-GAAP financial measures to our U.S. GAAP financial measures are set forth in tables at the end of this earnings release, which provide more details on the non-GAAP financial measures.

We use non-GAAP income from operation, non-GAAP operation margin, non-GAAP net income, non-GAAP net income margin, Non-GAAP net income attributed to the Company and Non-GAAP net income per fully diluted ADS in evaluating our operating results and for financial and operational decision-making purposes. Non-GAAP income from operation represents income from operation excluding share-based compensation expenses, non-GAAP net income represents net income excluding share-based compensation expenses, non-GAAP net income attributed to the Company represents net income attributed to the Company excluding share-based compensation expenses and non-GAAP net income per fully diluted ADS represents net income per fully diluted ADS excluding share-based compensation. Such adjustments have no impact on income tax. We believe that non-GAAP income from operation and non-GAAP net income help identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we include in results based on U.S. GAAP. We believe that non-GAAP income from operation and non-GAAP net income provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making. Our non-GAAP financial information should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for or superior to U.S. GAAP results. In addition, our calculation of non-GAAP financial information may be different from the calculation used by other companies, and therefore comparability may be limited.
